Bharath v

Software Engineer

+91 9353764190	Bharathvenkatesh209@gmail.com	Bengaluru, India

Objective

Computer Science (Data Science) student with expertise in Python, Java, and SQL, seeking a Software Engineer role to apply skills in software development, data-driven problem solving, and building scalable applications.

Projects

Student assessment analysis:
Analyze student performance data and provide insights & predictions (e.g., pass/fail, grades, weak subjects) to derive insights. Included CSV handling, exploratory data analysis, and data visualization.

Music Synthesizer:
Developed a web-based music synthesizer using AngularJS, HTML5, CSS3, and the Web Audio API. Implemented features like waveform selection, octave shift, and virtual keyboard integration. Built a responsive UI for interactive sound generation and playback.

Credit Card fraud detection:
Detect credit card fraudulent transactions using Python. Performed data preprocessing, exploratory analysis, and applied classification models to distinguish fraud vs non-fraud cases

Currently working on Farmer disease diagnosis in capstone project.

Key Skills

- **Programming Languages:** Python, Java, SQL.
- **Data Science & Analytics:** Data Analysis, Data Visualization, Machine Learning
- **Tools & Frameworks:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Git, GitHub
- **Soft Skills:** Time Management, Communication, g, Problem Solving, Decision making

Certification

DSA using JAVA -Code Chef | 2023
Ai and ML Infosys Springboard | 2024
Frontend Developer (React) hackerrank|2025

Education

Presidency university

Bengaluru, India.
CGPA : 6.2

Widia Poorna Prajna PU college
Bengaluru, India.
Marks: 72%
